

The Program of JSPS Influenza and Other Respiratory Virus Seminar in Niigata 2016

Date: January 28th, 2016

Place: Seminar room 1 at Niigata Medical Professionals Development Center, 2nd floor

(URL: <http://www.nuh.niigata-u.ac.jp/nmp/> Japanese only)

Time table:

SESSION 1 (12:00-14:00) with lunch

Opening remarks & Influenza and other respiratory project by JSPS Core-to Core Program, B. Asia-Africa Science Platforms 12:00-12:20

Reiko Saito (Division of International Health, Niigata Univ. Graduate School of Medical and Dental Sciences, Japan)

1. *Cohort study on pediatric pneumonia in the Philippines: Preliminary results* 12:20-12:40

Hitoshi Oshitani (Dept. of Virology, Tohoku Univ. Graduate School of Medicine, Japan)

2. *United Against Flu: A Tale of Successful Collaboration between Lebanon and Japan* 12:40-13:00

Zaraket Hassan (Faculty of Medicine, American University of Beirut, Lebanon)

3. *Influenza surveillance system in Vietnam (including seasonal and H5N1 virus)* 13:00-13:20

Nguyen Le Khanh Hang (Virology Dept., National Institute of Hygiene and Epidemiology, Vietnam)

4. *Active surveillance for the influenza A viruses of swine in Vietnam* 13:20-13:40

Nobuhiro Takemae (National Institute of Animal Health, Japan)

5. *Predictors of Death among Drug-Resistant Tuberculosis Patients In Kuala Lumpur, Malaysia: A Retrospective Cohort Study From 2009-2013* 13:40-14:00

Shamsul Azhar Shah (Unit of Epidemiology and Statistics, Dept. of Community Health, Universiti Kebangsaan Malaysia Medical Centre, Malaysia)

-----Break 15min-----

14:00-14:15

SESSION 2 (14:15-15:35)

6. *Molecular epidemiology of human respiratory syncytial virus in Japan from the 2012-2013 season to the 2014-2015 season* 14:15-14:35
Akinobu Hibino (Division of International Health, Niigata University Graduate School of Medical and Dental Sciences, Japan)
7. *Epidemic myalgia and myositis associated with human parechovirus type 3 infections.*
Katsumi Mizuta (Yamagata Prefectural Institute of Public Health, Japan) 14:35-14:55
8. *Molecular analysis of Enterovirus D68 in Japan and Philippines* 14:55-15:15
Michiko Okamoto (Dept. of Virology, Tohoku Univ. Graduate School of Medicine, Japan)
9. *Human Parechovirus Type 3 Infection in Neonates and Young Infants* 15:15-15:35
Yuta Aizawa (Dept. of Pediatrics, Niigata University Graduate School of Medical and Dental Sciences, Japan)
- Break 15min----- 15:35-15:50

SESSION 3 (15:50-17:15)

10. *Integrative proteome and transcriptome analysis to investigate human respiratory syncytial virus-host interaction* 15:50-16:10
Clyde Dapat (Dept. of Virology, Tohoku Univ. Graduate School of Medicine, Japan)
11. *Phylogenetic Analysis of Influenza and Human Respiratory Syncytial Virus in Malaysia 2014-2015* 16:10-16:30
Mohd Rohaizat bin Hassan (Unit of Epidemiology and Statistics, Dept. of Community Health, Universiti Kebangsaan Malaysia Medical Centre, Malaysia)
12. *Severe fever with thrombocytopenia syndrome in Japan* 16:30-16:50
Masayuki Saijo (National Institute of Infectious Diseases, Japan)
13. *Molecular analysis of Influenza virus circulated in Myanmar.* 16:50-17:10
Takashi Odagiri (Division of International Health, Niigata University Graduate School of Medical and Dental Sciences, Japan)
- Closing remarks (**Yugo Shobugawa**, Niigata Univ., Japan) 17:10-17:15
